February 13, 2009

2009 Sophomore Parents,

MNW will be offering all sophomores the opportunity to take the ASSET test. This test is designed to test students reading, writing, and math skills. This test has become a **REQUIREMENT** now by the State of Iowa and ICCC for sophomores to take any of the Math or English dual credit classes that we have available during their Junior year. These courses meet high school requirements as well college credits at almost every college in the country. The student does have to score at a certain level for them to be allowed to take these dual credit classes.

ICCC will be coming to MNW on Tuesday, March 3<sup>rd</sup> to offer this to any sophomore free of charge. If a student does NOT take the test then they are able to go to ICCC to take it at their own expense. This **MUST** be done and scores must be verified before students will be allowed to sign up for dual credit classes. Students **must** register in the high school office for the test **BY FEBRUARY 26<sup>TH</sup>** or they will not be allowed to take the test on March 3<sup>rd</sup>.

Here is also a website that explains the ASSET test and it provides a variety of practice tests and questions for students. [http://www.testprepreview.com/asset\\_practice.htm](http://www.testprepreview.com/asset_practice.htm)

Sincerely,

Jeff Anliker
